

# NVVT Coatings Innovation Workshop

Program 19 September 2023

## New style NVVT meeting

As announced at our last symposium, NVVT organizes a new style meeting at 19 September and invites you to a workshop on the future of coatings. We are all forced to participate in new coating technologies, a major challenge for our industry.

In this workshop, as coating specialists, we will share our vision of the future. It is not about company secrets, but about your/our personal opinion and vision.

What do you think we should/can do?

What does our industry need?

Are we stronger when we combine forces?

How?

After the workshop, a discussion summary will be shared at [www.nvvt-nederland.nl](http://www.nvvt-nederland.nl)

## New location

*Route description in attachment*

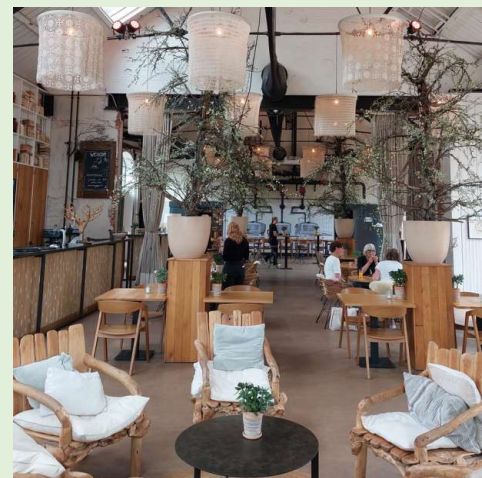

Centraal Ketelhuis

Soesterweg 320, 3812 BH Amersfoort

**! New: Including Dinner (buffet)**
